

The Trumpeter Swan Society

IDAHO SWAN STEWARDS

Organizing Idaho Landowners to:

- ◆ Improve and conserve key habitat
- ◆ Gather meaningful data on Trumpeter Swan use and habitats in their local areas
- ◆ Increase community awareness of Trumpeter Swans and their habitat needs

Photo: TTSS Board member Dave Myers

First Efforts in 2011

- ◆ Swan Valley “fence busters” removed hazardous old barbed wire fences
- ◆ Marked hazardous power lines
- ◆ Created Trumpeter Swan information brochure
- ◆ Explored strategies for long-term habitat protection

What’s Ahead?

A new project beginning in 2012 will be to gather needed information, build partnerships and develop the process to restore nesting Trumpeter Swans to Idaho’s Swan Valley, where none have nested since the 1930s.
