

## Vimeo 'Return of the Trumpeters' purchase, watch and download instructions

When you purchase the film online, you can watch it right then, and/or you can download it to your computer, thumbdrive, etc. Here's how: after your purchase, the green 'Purchase' button is replaced with a '**Start Watching**' button. Once you click on 'Start Watching', you can either watch it there or look for the link called '**Video Downloads**' to download the video file to your computer, USB drive, etc. Below are two screenshots of what you will see.

1. Below: The purchase button is now green button "**Start Watching**". Click on this to start watching.

2. Below: After you begin to play the video, the option to “**Video Downloads**” appears for you to download to your computer, thumbdrive, etc.

That's it! Thank you for purchasing the Vimeo version. Your purchase supports the swan conservation programs of the Trumpeter Swan Society. Enjoy this beautiful film!
